

TiE NAVIGATORS

Hello Entrepreneurs!

Running your own successful business is an amazing adventure, a wild ride. It's like doing an all terrain rally with its turns, curves, surprises, thrills and sweat which all lead to rewards, podium, successes. Just like a rally driver, every entrepreneur requires perseverance, attitude, focus and control to be able to complete a rally.

But the best of the Rally Drivers cannot even think about driving even a kilometer without a Navigator! All the skills of the ace rally driver are useless, if he / she does not get the right navigator to guide while driving!

Likewise, the Entrepreneurial Rally is just not smooth. There are so many blind turns, bumps, roadblocks, T points, crossroads and intersections that at times you might feel tired, confused and just ready to quit. But wait, how about an advice from a person who has been there and has travelled the same way before? One who knows the places and paths.

NAVIGATOR, a person who guides you, gives you directions, to make sure that you win the race!

A navigator who can show you the right direction and give advice **Focussed, Unbiased, Practically tried, Time tested and Validated** advice.

At TiE we have such navigators as our Charter Members. Not one or two, but more than 65 of them, willing to guide you, navigate you, give you directions at the Y and T points of your businesses!

With this background, TiE Rajasthan is proudly launching **TiE Navigators**. An initiative which would offer **One On One Guidance** by **TiE Charter Members** to fellow member entrepreneurs. The services are being offered on a **Complimentary Basis** to all TiE Members.

Why TiE Navigators ?

One might ask why these navigators when there are consultants, advisors, CAs available. The TiE Navigators, or the CMs have committed to give back to the entrepreneurial development of society, to share their knowledge and experience; the advice is given without any vested interest; navigator always give you short, quick, instant advice, out of practical experience, a different perspective.
